SS 227-1-a

NEW HAMPSHIRE LIBRARY STATISTICS 1989

New Hampshire State Library

The public library statistics are based on the annual reports sent to the public libraries each year. These reports contain information from which this compilation is made and the annual report sent by the State Library to the National Center for Education Statistics. In the four years we have sent these statistics to NCES we have not had a complete report, not every library returns its annual report by the deadline necessary for entry on the diskette sent to Washington. This year was no exception - there are gaps in these statistics, as indicated.

This year we have listed all the public libraries in New Hampshire, and have indicated the location of each and the population of the community in which the library is located. In the towns having more than one library, all are given for that town. The two towns with multiple libraries but one board of trustees for the libraries have only one total listed in each category. We have also divided the libraries by population, using the grouping set up in the Public Library Standards. Within each grouping the libraries are listed alphabetically with totals given for that group. The state totals are on the last page.

Hours, as listed, are those which the library is open to the public.

Staff FTE's (full-time equivalent) are figured by dividing the total paid staff hours worked per week by 40.

The local support column refers to the amount of funds allocated by the municipality for the support of the library; trust funds are those funds coming from library trusts; other includes all fines, fees, gifts, direct state aid and money from any other source reported by the library.

The circulation figures are the total of adult, juvenile and other circulation and includes print, serials and non-book.

Interlibrary loan means those materials loaned to other libraries, or, borrowed from other libraries; the net loan refers to the difference between the numbers loaned and borrowed, and may be a negative number.

New Hampshire Public Libraries, 1989

Town	*Name of library*	*Population*
Acworth	Silsby Public Library	588
Alexandria	Haynes Memorial Library	902

*Reference transactions are weekly totals

TOTAL AND PER CAPITA FIGURES FOR 1988 AND 1989.

The resident population figure is that compiled by the Office of State Planning.

Resident population, 1989	1,085,000
Total print holdings, 1989	4,264,442
Total circulation, all public libraries, 1989	6,679,678
Total income, all public libraries, 1989	$18,900,726*
Total expenditures, all public libraries, 1989	$20,259,600

*The discrepancy in income and expenditure comes in the capital outlay section - most projects were not reported until completed, although the funds may have been appropriated in previous years.

	1989	1988
Per capita circulation	6.15	5.98
Per capita expenditure	$17.42*	$13.89

*This figure also includes all capital outlay.

Of the total income of all public libraries reporting, 85% came from local sources; 6% from trust funds and 9% from other sources (including less than 1% from direct state aid).

Of the monies spent by the libraries reporting 51% went for staffing those libraries; 15% was spent on materials; 15% on operating costs and 19% on capital outlay, from additions to several libraries to handicapped accessibility to technology - computers and their periphery.
